## Z-Furring Channel

SteelCon Z-furring Channels are manufactured from galvanized steel and designed to fur out masonry, poured concrete and other interior applications.

### Product

- Z Channel provides attachment for gypsum wallboard while supporting insulation.
- Available in 25 gauge (0.018 mils), 22 gauge (0.027 mils) and 20 gauge (0.030 mils).
- Available in 1", 1 ½", 2" and 2 ½"
- Certs are available upon request

### Certification

SteelCon Z-Furring members meet or exceed ASTM C 645 Standard Specification for Nonstructural Steel Framing Members.

### Installation

Installation of Resilient Sound Channel should be in accordance with ASTM C 754 , Gypsum Association GA-216, and Gypsum Association GA-600.
